

Streets Alive Yarra

Uncle Drew Cafe Parklet Proposal

Area of Interest

To attract customers and allow adequate space for physical distancing, pop-up Parklets are being trialled with businesses across several locations in the City of Yarra.

Uncle Drew Cafe, located in Clifton Hill, is one such location.

Parklets have been shown to have many benefits:

- Increased foot traffic
- Additional open space
- Activation of streets
- Opportunity for outdoor dining
- Heightened visibility and street presence for businesses
- Increased perception of safety

Parklets have the potential to beautify and revitalise the street. Particularly in locations such as Uncle Drew Cafe, which is situated on a quieter, residential street.

BEFORE

AFTER

1 Bench seats have been provided to encourage people to linger and use the parklet.

2 Space has been provided for Uncle Drew Cafe to place extra outdoor seating for patrons.

3 Use of timber deck to ensure parklet is flush with the adjacent sidewalk.

4 Plants are used as a buffer on all sides of the parklet facing the road for increased visibility and protection for people using the parklet.
